Darius Takacs

Computer Science Teacher
Satu Mare, Satu Mare, Romania

Summary

As a proactive and solution-driven person, I bring critical thinking and strategic insight to every project that I work on. I thrive in dynamic environments, quickly adapting to change while maintaining a focus on simplicity, efficiency, and innovation. With a natural ability to analyze problems from multiple perspectives, I strive to deliver high-impact, streamlined solutions that align with organizational goals. I am committed to continuous improvement—both in my code and in the systems I help build—and take pride in contributing to team success through dedication, clear communication, and forward-thinking development practices.

Experience

Colegiul Național "Mihai Eminescu", Satu-Mare
Computer Science Teacher
September 2022 - Present (3 years 8 months)
Satu Mare, România

I worked closely with highly motivated and talented individuals from our school's programming team, Multitouch, preparing them for prestigious competitions such as the ONCS, NextLab.Tech, and FIRST Tech Challenge Romania. Training sessions were rigorous and hands-on, involving complex problem-solving, mock competitions, and in-depth solution analysis. I tailored the curriculum to include cutting-edge programming techniques and competition strategies, with a strong focus on C#, C++, and robotics. In parallel, I taught Oracle SQL, helping students develop solid database skills. Additionally, I co-organized several county-level programming and robotics competitions in collaboration with our system administrator, contributing to the growth of our local tech education community.

Școala Gimnazială "Mircea Eliade"
IT Teacher
September 2021 - September 2022 (1 year 1 month)
Satu Mare, România

I taught a variety of topics, from the basics of using the computer and the Microsoft Office suite (Word, Excel, PowerPoint) to more advanced concepts such as programming (Python, C++) and cyber security. My lessons were interactive, drawing on practical projects and real-world examples to make the subject more accessible and interesting.

CGS (Computer Generated Solutions)

IT Customer Service

November 2020 - December 2020 (2 months)

I worked as a Call Center Technical Assistant, providing support and solutions to customers for a wide range of technical issues and inquiries. This experience has helped me develop my skills to resolve problems quickly, handle calls effectively in a fast-paced environment and communicate clearly and empathetically with diverse customers, including in tense situations. I have gained a solid understanding of technical support procedures and demonstrated the ability to quickly learn new systems and products, while maintaining a consistently high standard of professionalism and customer satisfaction.

TBA Group

Eloomi Learning platform Administrator

September 2018 - June 2020 (1 year 10 months)

Much of my work consisted of setting up courses, managing user accounts, and customizing content to fit the specific needs of the organization. I interacted with various teams on a daily basis, from HR managers looking for training solutions to employees needing technical assistance.

Education

Universitatea din Oradea

Masterat în Informatică, Studii Distribuite în Internet · (October 2023 - July 2025)
